

TODD HAMILTON: I think overall I'm very happy with the way I played. Today I didn't really strike it as well as I have been but I got it around. I think I only made one bogey, so overall the week was very good. I had a pro-am team that won on I believe it was the second day pro-am, so the whole week was great. The weather was great, people always good when you come up here, so everything was 100 percent.

Q. How many times have you been to this event?

TODD HAMILTON: This is only my second time.

Q. Overall just the experience, what keeps you coming back here?

TODD HAMILTON: I think it's a good golf course, first of all. The people really come out and support this event, as you can see by I think they're trying to get \$20 million for only five years, \$20 million in the charity. It's a great golf course, people are fantastic and I think guys like to go when those two things are there.

Q. Was it fun to play with Sir Nick Faldo today? I know you didn't have quite the day you had yesterday, but just fun to be in the company of someone like that?

TODD HAMILTON: It was, yeah. I played with him a couple times before. I don't think either of us played that great when we played. Both of us having a chance to finish really high up on the leaderboard, it's been a while for me. I overheard Nick saying it was quite a while for him, so I think he did pretty good for an announcer, let's put it that way.

Q. Well, you and him are both Open champions, it was great to have you here.

TODD HAMILTON: Thank you very much, appreciate it.
